SCALPED BY SIOUX, 18 TO 2; A GORY STORY, INSTEAD OF GLORY.

Cross Pitched, Gave Eleven Bases on Balls, and the Hoosiers Could Not nit Hart to Good Purpose.

Special to the Indianapolis Journal. SIOUX CITY, Ia., Sept. 2.-The "Huskers" walked away from the Hoosiers today and were very easy winners throughout. The home players put up a splendid game in the field, and, although they did no slugging, such as characterized the series with Detroit, they secured thirteen hits. Besides, Cross was just wild enough to give bases when they counted. Hart was a puzzle to the Hoosiers, and but five clean hits were made off him, the sixth being a scratch fair bound from the plate. A base on balls and singles by Phillips and Motz in the second brought in the first run and a fumble by Stewart of McCarthy's

slow grounder, an advance on an out and

a steal home in the fifth gave the second

**DETAILS OF THE MURDER OF JAMES** GREGORY NEAR SHANGHAL.

Horace Loomis Charged by the Coroner with Committing the Deed-His Mother's Story-Indiana News.

Special to the Indianapolis Journal.

KOKOMO, Ind., Sept. 2.-The completion of the coroner's inquest to-day on the body of James Gregory, the wealthy bachelor, shot to death at Shanghal, twelve miles west of this city, Thursday night, reveals the full details of an atrocious murder. The coroner's verdict fastens the crime on Horace Loomis, a cousin of the dead man, and a son of Louisa Loomis, in whose house the crime was committed.

The story of the crime as brought out in the inquisition runs as follows: One mile south of the little hamlet of Shanghai are three farms adjoining, one owned by Mrs. Louisa F. Loomis, aged eighty years, another by her son Horace, aged thirty-five, with a wife and three children, and the third belonging to James Gregory, a nephew of the old lady. Since the death of the elder Loomis, seven years ago, Gregory has made his home with his aged and feeble aunt and has taken care of her in her declining years. This arrangement was against the wishes of young Loomis, but the old woman declared that Gregory was better to her than her own son, and refused to listen to the protestations of Horace, who openly accused Gregory of mercenary motives and with attempting to get possession of his mother's property.

Three weeks ago the old woman was taken violently ill, and since that time has been at the point of death. No one lived in the house but herself and Gregory, and he was her only regular attendant. Late Thursday night Gregory, after attending to the wants of the sick woman, laid down on his bed in an adjoining room to snatch an hour's sleep before time to administer another dose of medicine. A few moments before the little clock on the mantle struck the hour of midnight Horace Loomis stealthily entered the house from a rear door, and, walking around the bed of his sick mother, passed on into Gregory's room, where the faithful attendant of Mrs. Loomis slumbered, all unmindful of his impending fate. While Gregory yet slept Loomis drew a revolver and fired at his heart. Two more shots were fired as Gregory attempted to rise, all taking fatal effect. The two men then came into the room of the prostrate old woman. Gregory fell dead near the bed, and the murderer, with face averted from his old mother, passed out of the house the same way he entered and fied. Not a word was spoken by either men during the struggle, nor could Mrs. Loomis clearly see the faces of the men by the dim light, she being almost blind. Not less terrible was the experience of the sick woman the remainder of the night, she being helpless and alone with the corpse until morning. How she stood the trying ordeal is best told in her own words,

uttered faintly to the coroner from her deathbed: "The terrible affair seemed to give me superhuman strength," she said.
"I don't know how I did it, but I arose from the bed as soon as I could realize what had happened, and went out to the back yard to ring the farm bell. I could not ring it to make any one hear, and, drawing the bell rope to the door, returned to the house, and, after spreading a quilt over the dead body, sank down exhausted. How I endured the tortures of that awful night I never can tell. I am sure in that time I died a thousand deaths. Every time the clock struck I rang the bell again, but no one heard the alarm, and for six hours, from midnight until dawn, I suffered all the torments possible. I am now nearly eighty years old, and I never expected to have to go through such an experience as this. But it can't last much longer. I know I can live but a few days longer, then will come everlasting peace, praise the Lord." Loomis, the alleged assassin, was arrest-ed, and is in jail without bail. He returned home the next day with the improbable story that he and Gregory had been set upon by robbers, who had killed Gregory and dragged himself several miles away. All this was disproved at the inquest.

Loomis is undoubtedly insane. He has been in the asylum twice, the last time four years ago. His arrest is a great relief to the neighborhood, as he is regarded as a dangerous man. Gregory had been several times warned of his danger, but he did not take the matter seriously. Gregory was fifty years old.

Special to the Indianapolis Journal. LAFAYETTE, Ind., Sept. 2.- The nomination of A. G. "THE SHOTGUN OR JUSTICE." Topic of an Address by Helen M. Gou

gar at Prohibition Park.

NEW YORK, Sept. 2 .- Fully one thousand men and women listened to an address of Mrs. Helen M. Gougar, of Indiana, in the auditorium in Prohibition Park, Staten Island, this afternoon. The announced subject was "The Shotgun or Justice-Which Shall the Laboring Classes Have in the Settlement of Strikes and the Battles Between Capital and Labor?" Referring to the poverty in the great cities and the suffering in the great tenement house districts of the cities, Mrs. Gougar said there were thousands of acres of land in the suburbs of New York held idle for speculative purposes, and added: "If I were the Almighty for only five minutes I would take all this property from the land speculators and give to God's children in the tenement houses of New York a place upon this earth and some of the gospel of fresh air and sunshine." Mrs. Gougar painted a very vivid picture of poverty in Chicago of the great army of unemployed who were provided for in that city by publie charity during last winter, and spoke at length of the labor troubles at Pullman and in and about Chicago. She declared that all of the idleness and labor troubles grow out of the liquor traffic.

TERRORIZED BY "FIREBUGS."

### People of Seneca Falls Have Lost \$200,-000 by Incendiarism.

SENECA FALLS, N. Y., Sept. 2.-A reign of terror has prevailed here for some time owing to incendiary fires. Many timid people were afraid to go to bed, thinking they might be burned to death. The authorities employed every means to trap the firebugs. Three young men, against whom there are strong evidences of arson, were arrested this afternoon and lodged in the county jail. The alleged incendiaries are John Mulligan, twenty-one years of age; William Brace, aged twenty-two, and Thomas Pelkinton, aged twenty-three. The men lived near Swaby's barns and outhouses, which were destroyed by fire about midnight last, entailing a loss of from \$10,000 to \$15,-000. About 2 o'clock this morning another alarm of fire was sounded. The carriage and icenouse of Gould were on fire. Mrs. Gould's coachman, John Dowdell, was in the carriage house at the time, and a witness of the work of the incendiaries. The young men were taken to the county jail at Waterloo, where they were locked up. During the day there was much excitement and lynching was talked of. The loss by incendiary fires here since the first of January has been over \$200,000.

SUPREME LODGE K. OF P.

#### Indianapolis Sure of the Next Meeting -Germans May Secede.

Special to the Indianapolis Journal. WASHINGTON, Sept. 2.-The Supreme Lodge of the Knights of Pythias will be in session all next week. There is no doubt that Indianapolis will be selected as the place for the next session of the Supreme Lodge. The committees appointed to consider the subject of the expulsion of the liquor dealers and the suppression of the German ritual will, it is understood, report favorably on both propositions, though it is not so certain that the Supreme Lodge will adopt their reports without reserve. Should the German ritual be suppressed, there are threats that some of the German lodges will secede from the order.

ATMOSPHERIC PHENOMENON.

#### New England Air Had an "Unearthly Yellow" Look Yesterday.

BOSTON, Mass., Sept. 2.-A peculiar atmospheric phenomenon attracted the attention of Bostonians to-day. During the latter part of the morning and all the afternoon the sun, unobscured by clouds, feebly shone through smoke supposed to come from the forest fires now raging in the lake region. The effect has been a weird, unearthly yellow tinge to the atmosphere, made oppressive by the general absence of stirring air. The day has been a repetition, although in a less degree, of the famous "yellow Tuesday" of 1881. Reports of a similar phenomenon have been received from cities and towns all over New

Atlantic coast. Race Track Buildings Burned. BALTIMORE, Sept. 2 .- Nearly a quarter f a mile of buildings, including the grand stand and cooling paddock and exposition buildings at Pimlico race course, were burned this afternoon. The loss was about \$40,000 and insurance did not amount to half. The property belonged to the Mary-

DEFENSES TOO STRONG

THE JAPANESE ARMY DID NOT CARE TO ATTACK FORT ARTHUR.

Forced Loan Ordered by Chinese Officials-Haiti's President Seriously Ill-General Foreign News.

LONDON, Sept. 3.-A special dispatch to the Times from Shanghai states that the Chinese report that on Thursday last the Japanese troops made a reconnoissance in force on Fort Arthur. They found the landward defenses too strong and retired without making an attack.

Another dispatch from Shanghai states that an imperial decree has been issued in Pekin ordering a forced loan, It calls upon four native banks to loan the government, if possible, ten million taels.

The Standard's correspondent in Berlin telegraphs as follows: "The war party of which Prince Tching is the head has, I learn, got the upper hand in China, which means that the struggle with Japan will be prosecuted with vigor. A large army is gathering near Pekin. Half of this army will guard the capital, while the other half will march to Corea before winter. Owing to the freezing of the Gulf of Pe Chi Li the Japanese will then not derive so much advantage from their navy as they have hitherto, and will be doomed, more or less, to inaction." The correspondent adds that the rumor of negotiations between the United States, Great Britain, Russia and Germany for the holding of a conference to pave the way for peace is unfounded.

Socialists Bury a Suicide. BERLAN, Sept. 2.-The body of Agnes Wabnitz, the Socialist leader and founder of the Berlin Waitresses' Union, who committed suicide on Tuesday night last by taking prussic acid in the Friedrichshain Cemetery, was interred to-day in the Freethought Cemetery. The funeral was made the occasion of a great Socialist demonstration. Thousands of persons accomdreds of wreaths, bound with red ribbons, were received from all parts of the country where socialism has a foothold. Herr Vontherr, a Socialist member of the Reichstag, delivered an oration at the grave and Socialist hymns were sung. There was no disorder. The body of the suicide was found near the monument erected over the graves of those who lost their lives in the riots of 1848. The woman was recently condemned to imprisonment for making an incendiary speech, and on the day she killed herself she should have surrendered to the prison authorities to undergo her punishment. It is pretty certain that she committed sui-

which she was condemned. Hippolyte Seriously III. NEW YORK, Sept. 2 .- The steamer Saginaw, Captain Rockwell, from Azua, San Domingo, etc., brings no news of any disturbance in Hayti. President Hyppolyte is said to be mortally ill, and when he dies it is thought that a very uncertain state of affairs will prevail and a revolution will be among the possibilities. The Saginaw also brings the news from Puerta Plata that on Aug. 15 the Hamburg-American Packet Company steamer Colonia, in attempting to change her berth, struck a sunken steamer in the harbor and will probably prove a total loss. It seems that there was a French steamer anchored in the most desirable berth, and when she moved the Colonia attempted to take her place, and while making the necessary detour to accomplish this struck on an unmarked sunken wreck.

Soldiers Wreck a Newspaper Office. ATHENS, Sept. 2.-Much excitement has been occasioned here by a summary act of vengeance against a newspaper published in this city. For some time past the Akropolis has been publishing a series of articles derogatory to the army. The articles excited much indignation in army, and the matter was heatedly discussed. Finally it was decided to put a stop to further adverse criticism on the part of the Akropolis. One hundred and thirty officers and men of all arms proceeded to the office of the paper yesterday and wrecked the place. Then they went to the editor's residence, burst in the doors and destroyed all the household effects. Twenty of the soldiers have been arrested. The outrage is everywhere denounced.

### IDA J. WELLS SPEAKS

SHE DENOUNCES THE WHOLESALE LYNCHING IN TENNESSEE,

And Says It Is High Time Steps Were Taken to Make Such Crimes

Impossible.

CHICAGO, Sept. 2.-Ida J. Wells, the young colored woman whose work on the lecture platform here and abroad in behalf of the anti-lynching movement has made her name well known, could scarcely restrain her emotion when she read the published account of the fate visited upon six of her race near Millington, Tenn. "Granting that those men were guilty

of the crime charged," she said, "there is no other place in the world where a capital offense is made of burning barns. I. scarcely know what to say of the men who are responsible for this butchery. This last example of lynch law is but a sample of the sort of things done in the South. The white men down there do not think any more of killing a negro than they do of slaying a mad dog. This incident serves to back up the contention that the negroes are not lynched solely for the perpetration of foul crimes, notwithstand-ing the symposium contributed recently to a New York newspaper by a number of Southern Congressmen, reaffirming that lynching seldom or never took place in the South except for crimes committed against women and children. An excuse is made by the whites for the purpose of shielding themselves and leaving them free to murder all the negroes they wish Despite the history of races and nations, the Southern white man vainly believes he can keep down an entire race by such methods of oppression and intimidation.
The South has more than once insisted upon being left alone with the negro problem. The Nation has obligingly accommodated her, and to-day the spectacle is presented of a so-called civilized country standing idly by and seeing one section disgrace the entire country. I think it is high time the justice-loving and law-abiding people should take some steps to make such acts impossible.

Led Them Into the Mob's Hands. MEMPHIS, Tenn., Sept. 2.-Criminal Court Judge L. P. Cooper is determined to punish the members of the mob who lynched six alleged negro incendiaries near Millington, Tenn., Friday night. Four more men were arrested on bench warrants today charging them with complicity in the lynching. Their names are J. D. Laxton, E. N. Atkinson, J. W. Walker and W. G. Thompson. From facts brought out to-day it appears that detective Richards knew that an attempt would be made to lynch the prisoners, and deliberately led them into the hands of the mob. Several citizens had warned the officer against starting to Memphis in a wagon and urged him to place a heavy guard around the prisoners until the arrival of the train. A number of citizens volunteered to act as guards, but Richardson declined their offer.

The funeral of the victims of the vigi-ants occurred at Kerrville, Tenn., to-day. No demonstration of any kind occurred. The lynching has aroused a storm of in-dignation. The Commercial-Appeal edi-torially says: "It was a deed of almost inconceivable savagery, an act of cold-blooded, brutal, devillish atrocity that makes every nerve writhe with horror and makes every nerve writhe with horror and the heart sick with loathing for the bloody beasts that committed it. Every man re-sponsible for the foul crime is a wretch whose feet would defile the gallows and whose neck would disgrace the rope that strangled him. The whole community must bear the odium of a deed done by a band of ruffian midnight assassins, unless it takes action to clear itself of all respon-sibility. The lynchers must be brought to justice."

Wife of a Cincinnati Brewer Attempts Murder on a Train.

CINCINNATI, O., Sept. 2 .- On the second day of August the wife of John Kauffman, the brewer, attempted to shoot and kill Emil Schmidt, the receiver of the Kauffman Brewing Company. She was held in bonds to keep the peace, and also was held to answer for her crime. To-day she put a watch on her husband's movements, and, learning that he was going out to his Glendale farm, boarded the same train. As Mr. Kauffman arose to get off the train she fired from behind at his head. The ball plowed along the right cheek and came out near the mouth. His wound is not necessarily fatal. When Mrs. Kauffman was arrested a quantity of paris green was found on her person. Mr. Kauffman has a petition for divorce pending. Mrs. Kauffman was a variety actress.

NO MORE CUTS.

New Jersey Potters Vote Against Ac-

cepting Further Reductions. TRENTON, N. J., Sept. 2.—The operative potters of this city have voted not to accept any further cut in their wages. This decision was reached on account of the evident present intention of the manufacturers to ask the men to submit to another reduction on account of Senator Smith's failure to get the crockery schedule in the new tariff bill raised after the manufacturers and workmen signed the re-cent agreement on a basis of a 121/2 per cent. cut. Some of the manufacturers think there should be a further cut of 171/2 per cent., but others will not ask more than

Clothing Makers' Strike May Grow. NEW YORK, Sept. 2.-It is estimated that two thousand persons connected with the clothing trades of this city will to-morrow morning be on strike unless the employers will accede to demands for more wages and fewer working hours. The seven hundred finishers who went out according to the agreement of Saturday threw out more than a thousand operators. The employes of several houses will meet during the week and decide to go out if their demands are not heeded.

We Shall See. Chicago Inter Ocean.

We shall see what happens now that a new tariff is in force. We shall see whether sugar goes up or down in price. We shall see if free wool makes cheap clothing. We shall see if the 35-per-cent. reduction in the raw material of coal makes clothing, cutlery, pottery or any other goods manufactured by the use of coal perceptibly cheaper. We shall see if itself is made any cheaper to the small consumer who buys it by the ton, or by the still smaller consumer who buys it by the basketful. We shall see if the Gorman Sugar Trust's plan of "opening the markets of the world" will lead any foreign country to buy an additional bushel of American wheat or an additional pound of American meat, or to pay a higher price for either. We shall see if the Democratic promise of \$1.25 wheat will be kept. We shall see if wages range as high during the first eighteen months of Gormanism as during the first eighteen months of Me-

Ocean Cable Successfully Laid. NEW YORK, Sept. 2.—The cable steamer Mackay-Bennett passed up the bay close to the Long island shore to-day, laying the shore end of the commercial cable. The work of laying the cable was accomplished without the slightest difficulty. The surface of the bay was without a ripple and no sailing craft impeded the laying of the

IT'S EASY TO GET IN where there's a sluggish liver, for any of the germs of disease that surround you. If your liver were active and healthy, it would keep them out of your blood. You'll have to watch your liver for self-protection.

Just as soon as you see the first symptoms that it's wrong (eruptions on the skin, or a dull and worn-out feeling) you ought to take Dr. Pierce's Golden Medical Discovery. That will start your liver into a healthy, natural action, purify your blood, too; it will brace up your whole system, and give you strength and color, and put on needed flesh-not fat, but wholesome, necessary flesh.

Dr. R. V. Pierce: Dear Sir — I heartily recommend your "Discovery" to any person suffering from general debility as the best thing they can take for it. After taking the "Discovery" I am happy to say I never felt better in my life than I do now.
